

MEDICAL DEVICE REGULATION (MDR)

EUROPEAN MEDICAL DEVICE REGULATION

The MDR will replace the EU's current medical device directives. For manufacturers of medical devices market access in the EU depends on compliance with the MDR.

WHY MDR?

The stricter requirements for medical devices are the European answer especially to scandal cases with low-quality and defective medical devices.

CORE OBJECTIVES

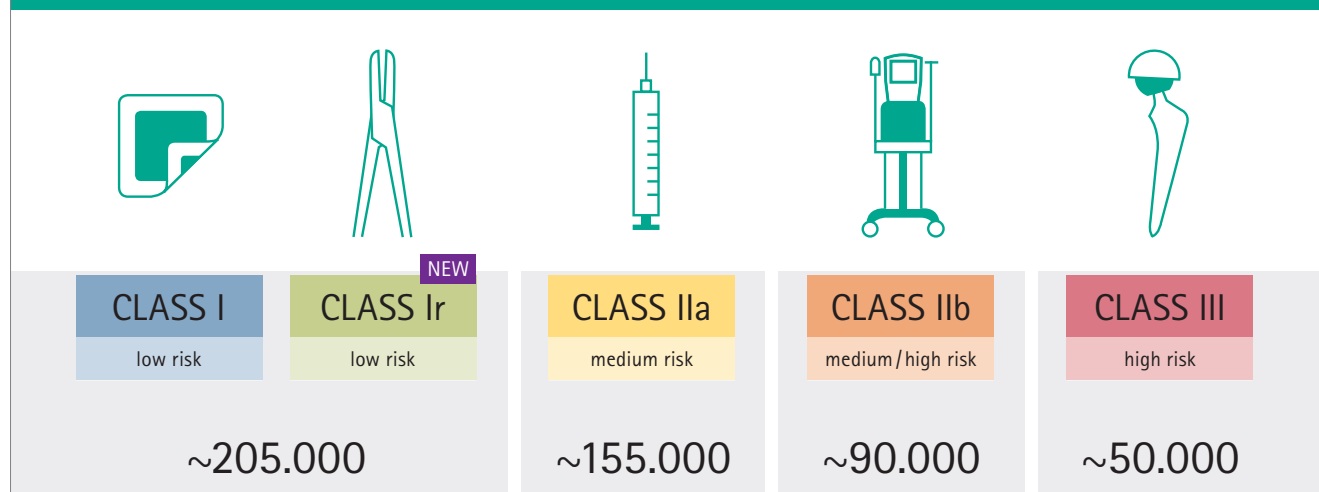

- Better protection of public health and patient safety
- Higher transparency and traceability

MAIN CHANGES

- New regulations regarding product classification
- Increased requirements related to technical documentation
- Increased requirements regarding clinical data
- More extensive reporting obligations for manufacturers (e.g. active market observation)
- Higher approval requirements for high-risk products (Scrutiny)
- More extensive requirements regarding the documentation, provision and traceability of product data and product-related information (UDI and EUDAMED)

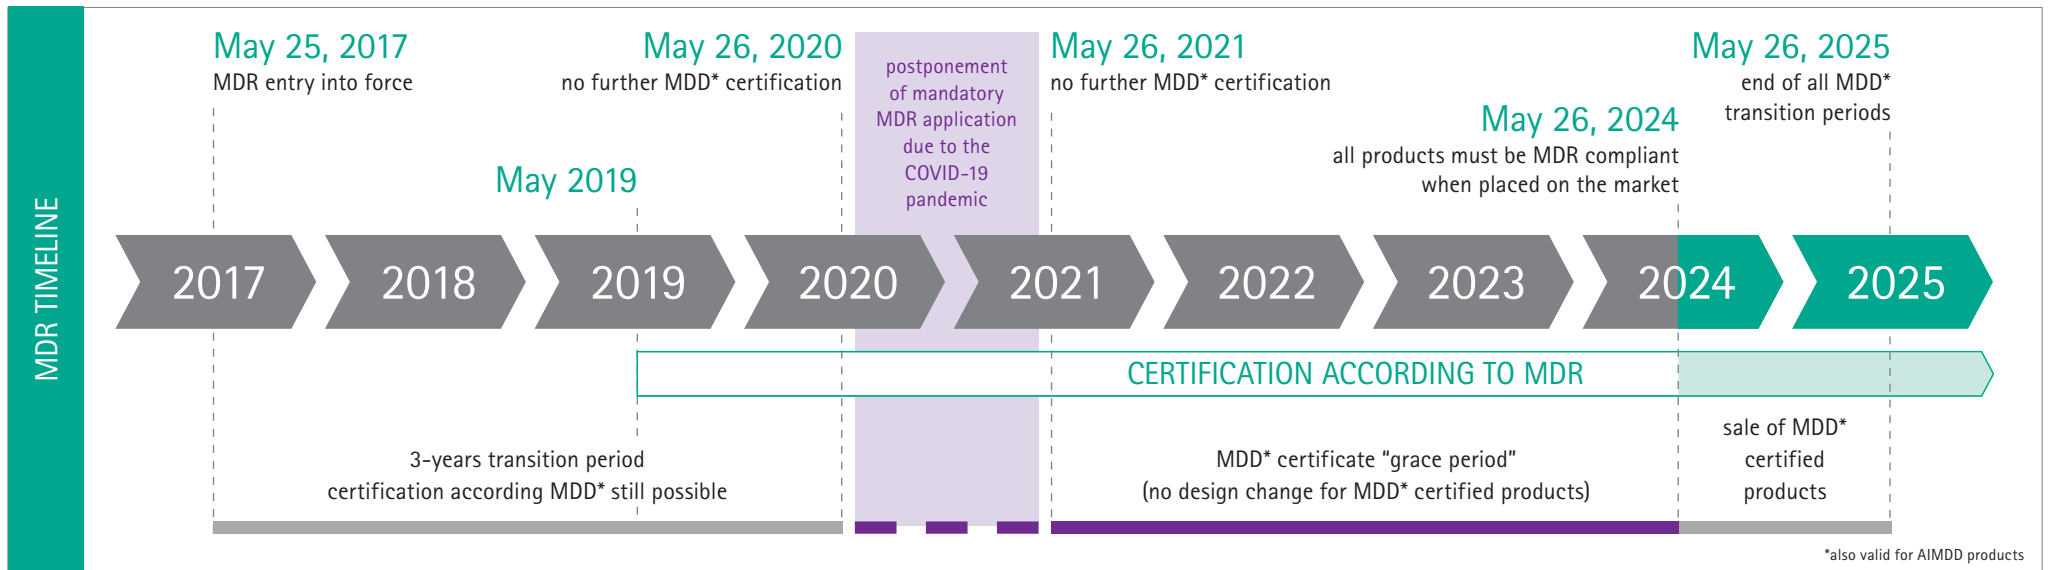

CLASSIFICATION OF MEDICAL DEVICES ACCORDING TO MDR

The MDR affects about 500,000 medical devices in the EU. It is estimated that approximately 65 % of the products will be (re)certified according to the new regulation.

IMPLEMENTATION AT B. BRAUN

OUR VISION

We protect and improve the health of people around the world.

YES, WE CAN MDR

- For the MDR transition we are providing resources in multi-digit million range.
- We are transferring our medical devices to the MDR as quickly as possible and on-time.
- **Our class I medical devices meet all legal requirements by the mandatory application date of the MDR on May 26, 2021.**
- Medical devices higher than class I will be transferred to MDR successively by the maximum term in May 2024.

YES, WE CAN MDR

- **Our quality management systems of B. Braun Melsungen AG, Aesculap AG and B. Braun Avitum AG are certified by our Notified Bodies according to the MDR.**

WE GUARANTEE SECURITY OF SUPPLY

- Our top priority: **Safe and reliable supply of our customers!**
- Our broad product portfolio covers not only mass articles but also many niche products.
- We communicate standard product range adjustments in a timely, open and transparent manner and offer alternatives as far as possible.

FAMILY-OWNED COMPANY

- As a family-owned company with over 180 years of tradition, we think long-term and work closely, fairly and in partnership with our customers and suppliers.
